

GAURAV SINGH

+91 8530042162 | gauravsingh1752005@gmail.com | linkedin.com/in/gauravsingh175 | github.com/Gaurav7127 | Satara, Maharashtra

PROFESSIONAL SUMMARY

AI and Full-Stack Developer with expertise in Large Language Models, AI Agents, Generative AI, and modern web technologies. Proficient in building intelligent applications using Python, React, TypeScript, and cloud platforms. Strong foundation in data structures, algorithms, and MLOps with hands-on experience in agent-based modeling, computer vision, recommendation systems, and responsive UI/UX design. Passionate about leveraging AI to create innovative, user-centric solutions.

EDUCATION

Karmaveer Bhaurao Patil University Satara, Maharashtra
Master of Science (M.Sc.) in Artificial Intelligence (Pursuing) 2026 – 2028

Karmaveer Bhaurao Patil University Satara, Maharashtra
Bachelor of Science (B.Sc.) in Artificial Intelligence – CGPA: 9.51/10 2023 – 2026

- Relevant Coursework: Data Structures & Algorithms, Programming Languages, Database Management, AI Fundamentals

Yashwantrao Chavan Institute of Science (YCIS) Satara, Maharashtra
Higher Secondary Certificate (Class XII) – 64.67% 2021 – 2023

Bharat English Medium School Satara, Maharashtra
Secondary School Certificate (Class X) – 87% 2021

INTERNSHIP EXPERIENCE

Edunet Foundation – in collaboration with AICTE & IBM SkillsBuild Remote
AI and Machine Learning Virtual Internship Jan 2026 – Feb 2026

- Completed a structured 6-week internship on Artificial Intelligence & Machine Learning, delivered in collaboration with the All India Council for Technical Education (AICTE) and IBM SkillsBuild
- Built practical understanding of AI/ML concepts and workflows through guided project-based learning modules, strengthening foundations that complement academic coursework and personal AI/LLM projects

Microsoft Elevate – in collaboration with AICTE Remote
Power BI for Business Applications Internship (Emerging Technologies) Feb 2026 – Mar 2026

- Completed a 4-week Microsoft Elevate internship on Power BI for Business Applications under the Emerging Technologies track, in collaboration with AICTE
- Gained hands-on experience with Power BI for data visualization, dashboard design, and business analytics reporting
- Applied data visualization principles to translate raw datasets into actionable business insights

TECHNICAL SKILLS

Core Expertise: Large Language Models (LLM), AI Agents, Agent-based Modeling, Generative AI

Programming Languages: Python, Java, C, C++, JavaScript, TypeScript, SQL

AI/ML Technologies: Machine Learning, Generative AI (Google Gemini API), Computer Vision, NLP, OpenCV, TensorFlow, Scikit-Learn, NumPy, Pandas

Web Technologies: HTML5, CSS3, React, TypeScript, Tailwind CSS, Flask, Streamlit, Framer Motion, Responsive Design

Cloud & MLOps: Google Cloud Platform (Vertex AI, Document AI), AWS (Advanced Networking), Oracle Cloud Infrastructure (OCI), MLOps

Developer Tools: Git, GitHub, API Integration (TMDb, RESTful APIs, Google Gemini), Power BI, Data Visualization

Design Tools: Adobe XD, UI/UX Design, Figma, Prototyping

Database Technologies: SQL, Database Management Systems, Data Structures

Soft Skills: Problem Solving, Communication, Teamwork, Time Management, Agile Development

FEATURED PROJECTS

GuardianAI – AI-Powered Personal Safety Ecosystem

2024-2025

React, TypeScript, Google Gemini API, Tailwind CSS

- Architected mission-critical safety application providing real-time threat mitigation and emergency protocols for women's safety
- Integrated context-aware Security Agent powered by Gemini 2.5 Flash LLM for instant safety advice with low-latency response
- Developed automated SOS broadcasting system with live GPS tracking and native API bridge for audio/vibration alerts
- Implemented social engineering tools including Fake Call simulator for de-escalation in threatening situations
- Built robust offline data persistence layer for critical legal guides and emergency contacts in low-connectivity environments

Emotion-Based Music Recommendation System

2024

Python, OpenCV, NumPy, Pandas

- Developed real-time emotion detection system using computer vision and facial expression analysis with OpenCV
- Implemented ML model for emotion classification achieving 85%+ accuracy across multiple emotional states
- Designed intelligent playlist mapping algorithm that recommends mood-based music based on detected emotions
- Built end-to-end backend pipeline for processing video frames and integrating with music streaming APIs

Movie Recommendation System

2024

Python, Pandas, Scikit-Learn, TMDb API

- Engineered content-based recommendation engine using TF-IDF vectorization and cosine similarity algorithms
- Integrated TMDb API for real-time movie metadata retrieval including posters, ratings, and descriptions
- Implemented data preprocessing pipeline handling 10K+ movie records with feature engineering for optimal recommendations
- Achieved 78% recommendation accuracy through collaborative filtering and hybrid recommendation techniques

Personal Portfolio Website

2024

React, Tailwind CSS, JavaScript, Framer Motion

- Designed and developed fully responsive portfolio website with modern UI/UX and smooth animations using Framer Motion
- Implemented component-based architecture with React hooks for optimal performance and code reusability
- Created interactive project showcases and skill visualizations with seamless transitions and mobile-first design
- Deployed on Netlify with continuous integration: gauravsingh-dev.netlify.app

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** – Oracle (2025)
- **Machine Learning Operations (MLOps) with Vertex AI** – Google Cloud (2025)
- **AWS Advanced Networking – Specialty** – Udemy (2025)
- **Automate Data Capture at Scale with Document AI Skill Badge** – Google Cloud (2025)
- **Cyber Job Simulation** – Deloitte & The Forage (2025)
- **TATA Data Visualisation: Empowering Business with Effective Insights** – TATA & The Forage (2025)
- **Introduction to Data Science** – Cisco (2025)
- **Essentials User Experience Design & Adobe XD UI/UX Design** (2024)

ACHIEVEMENTS & ACTIVITIES

- Maintained exceptional academic performance with 9.51/10 CGPA while building multiple production projects
- Successfully completed 8+ industry-recognized certifications in AI, Cloud Computing, MLOps, and Data Science
- Built and deployed 4+ full-stack applications showcasing proficiency across LLMs, ML, backend, and frontend development
- Developed mission-critical safety system (GuardianAI) leveraging AI agents for real-world social impact
- Active contributor to tech community through personal portfolio and project documentation
- Passionate about exploring emerging technologies including generative AI, game development, and cloud computing
